

SPECIAL PROVISIONS

SECTION 731 – STRUCTURAL SUPPORTS AND FOUNDATIONS FOR TRAFFIC SIGNAL AND HIGHWAY LIGHTING

731-4 METHOD OF MEASUREMENT

The first paragraph of the Standard Specifications is revised to read:

The structural supports and foundations for traffic signals and highway lighting will be measured as a unit for each type of support and foundation furnished and/or installed.

731-5 BASIS OF PAYMENT

The first paragraph of the Standard Specifications is revised to read:

The accepted quantities of foundations for signal and lighting supports, measured as provided above, will be paid for at the contract unit price each, for the type of foundation designated in the bidding schedule, which price shall be full compensation for the work, complete in place, as described and specified herein and on the plans, including all hardware, anchor bolts, reinforcing steel, conduit, wire, excavation, backfill and incidentals necessary to complete the work.

The accepted quantities of supports for signals and lighting, measured as provided above, will be paid for at the contract unit price each, for installing the Department Furnished support of the type designated in the bidding schedule, which price shall be full compensation for the work, complete in place, as described and specified herein and on the plans.
